A Few Bushels of Grain

A few bushels of corn planted in the ground becomes many bushels of grain. So with the few dollars put in our bank from time to time. The rain causes your corn to grow and the interest we pay causes your dollars to grow. Would the ablest business man in the county have a bank account if there were no advantages or convenience in it? Would they have been able to reach their present commanding position if they had spent half their time worrying about the safety of the money they had made? We invite you to open an account as they did and the advantages they found will surely come to you. When you have earned your money, don't let it slip away from you; ten here, twenty there, a hundred somewhere else, soon make a thousand dollars. We offer you our bank as a safe place in which to deposit your money.
